# Welcome To ARIYA CAPITAL CONTRACTING CO.

*Aria Capital Contracting Company is a trusted leader in delivering comprehensive construction, MEP, and HVAC solutions, recognized for its commitment to quality, safety, and innovation across every stage of project execution.*

With a proven track record in handling large-scale commercial, residential, and industrial projects, Aria Capital Contracting Company continues to provide turnkey contracting services that combine advanced technology with skilled expertise to exceed client expectations.

We pride ourselves on being more than just a contractor; at Aria Capital Contracting Company, we act as a reliable partner to our clients by offering sustainable, cost-effective, and efficient solutions that add long-term value to their investments.

# About Company

*Leading vendor of Civil, MEP and HVAC (heating, ventilation, and air conditioning) systems.*

Ariacapital Contracting Company is a leading provider of Civil, HVAC (Heating, Ventilation, and Air Conditioning), and MEP (Mechanical, Electrical, and Plumbing) solutions across Saudi Arabia. With a strong commitment to quality, safety, and innovation, we deliver end-to-end services that meet the highest industry standards. Our team of skilled engineers and technicians ensures every project is completed with precision, efficiency, and reliability. From construction and infrastructure development to advanced building systems, Ariacapital Contracting continues to build a reputation for excellence, trust, and long-term client satisfaction.

# Our Vision

To be a trusted leader in delivering innovative, sustainable, and high-quality contracting solutions that shape the future of construction and infrastructure development in Saudi Arabia.

## Our Mission

To provide exceptional Civil, HVAC, and MEP services through quality workmanship, advanced technology, and a commitment to safety and sustainability ensuring client satisfaction and long-term success in every project we deliver.

Build long-term partnerships with clients through reliability, transparency, and excellence.

# Our Services

## Civil Works:

Complete civil construction services such as foundations, structural works, concrete, masonry, finishing, and external landscaping

## Structural Steel & Concrete Works:

Fabrication, erection, and reinforcement of structural steel and concrete elements to ensure strength, durability, and precision in every project.

## MEP Solutions:

Full mechanical, electrical, and plumbing services — from system design to execution and commissioning — ensuring reliable and energy-efficient building performance.

## Infrastructure Development:

Construction of roads, drainage, water supply, and utility networks with strict adherence to safety and quality standards.

## Maintenance Services:

Preventive and corrective maintenance to extend the life and performance of building systems and infrastructure.

## HVAC Systems:

Design, installation, and maintenance of efficient heating, ventilation, and air conditioning systems for residential, commercial, and industrial projects.

# Why Choose Us?

*We combine skilled professionals, advanced technology, and strict safety standards to ensure every project is completed on time, within budget, and to the highest standards. With a proven track record in Civil, HVAC, and MEP works.*

-  Experienced team of engineers and technicians
-  Partnerships with leading brands such as Hitachi, Daikin, Carrier, Trane, etc.
-  Dedicated project management team ensuring timely delivery.
-  Commitment to international standards and local regulations.
-  On-time project completion with reliable performance

Our team consists of highly qualified engineers, skilled technicians, and dedicated project managers who work collaboratively to ensure precision, efficiency, and innovation in every project. We adopt the latest construction technologies and modern management systems to ensure smooth coordination, timely delivery, and superior results.

Every project is delivered in compliance with international codes, local authority regulations, and industry best practices, ensuring safety, durability, and efficiency.

We specialize in implementing modern technologies, energy-saving systems, and sustainable designs that reduce operational costs and support green building standards.

From high-rise buildings and commercial complexes to industrial facilities, we have successfully delivered MEP projects of various scales, always achieving client satisfaction.

With strong project management and resource planning, we guarantee timely completion without compromising on quality or safety.

We understand that every project has unique requirements; therefore, we tailor our MEP designs and installations to meet the specific needs of each client.

Our commitment doesn't end at project handover—we provide comprehensive maintenance, troubleshooting, and technical support services to ensure long-term performance.

# Case Study

## Successful Execution of MEP Works for a Commercial Complex

### 01

#### Project Overview

Ariacapital Contracting Company undertakes complex projects in Civil, HVAC, and MEP sectors, delivering high-quality construction and engineering solutions. Each project involves multiple disciplines, including structural works, building systems, and infrastructure development, requiring precise planning and coordination to meet client requirements, timelines, and quality standards.

### 02

#### Challenge

Projects in the construction and engineering sector often present various challenges, such as:

1. Coordinating multiple technical disciplines effectively.
2. Ensuring compliance with safety and quality standards.
3. Managing resources efficiently to stay within budget.
4. Adapting to unexpected site conditions or design changes.

### 03

#### Project Solution

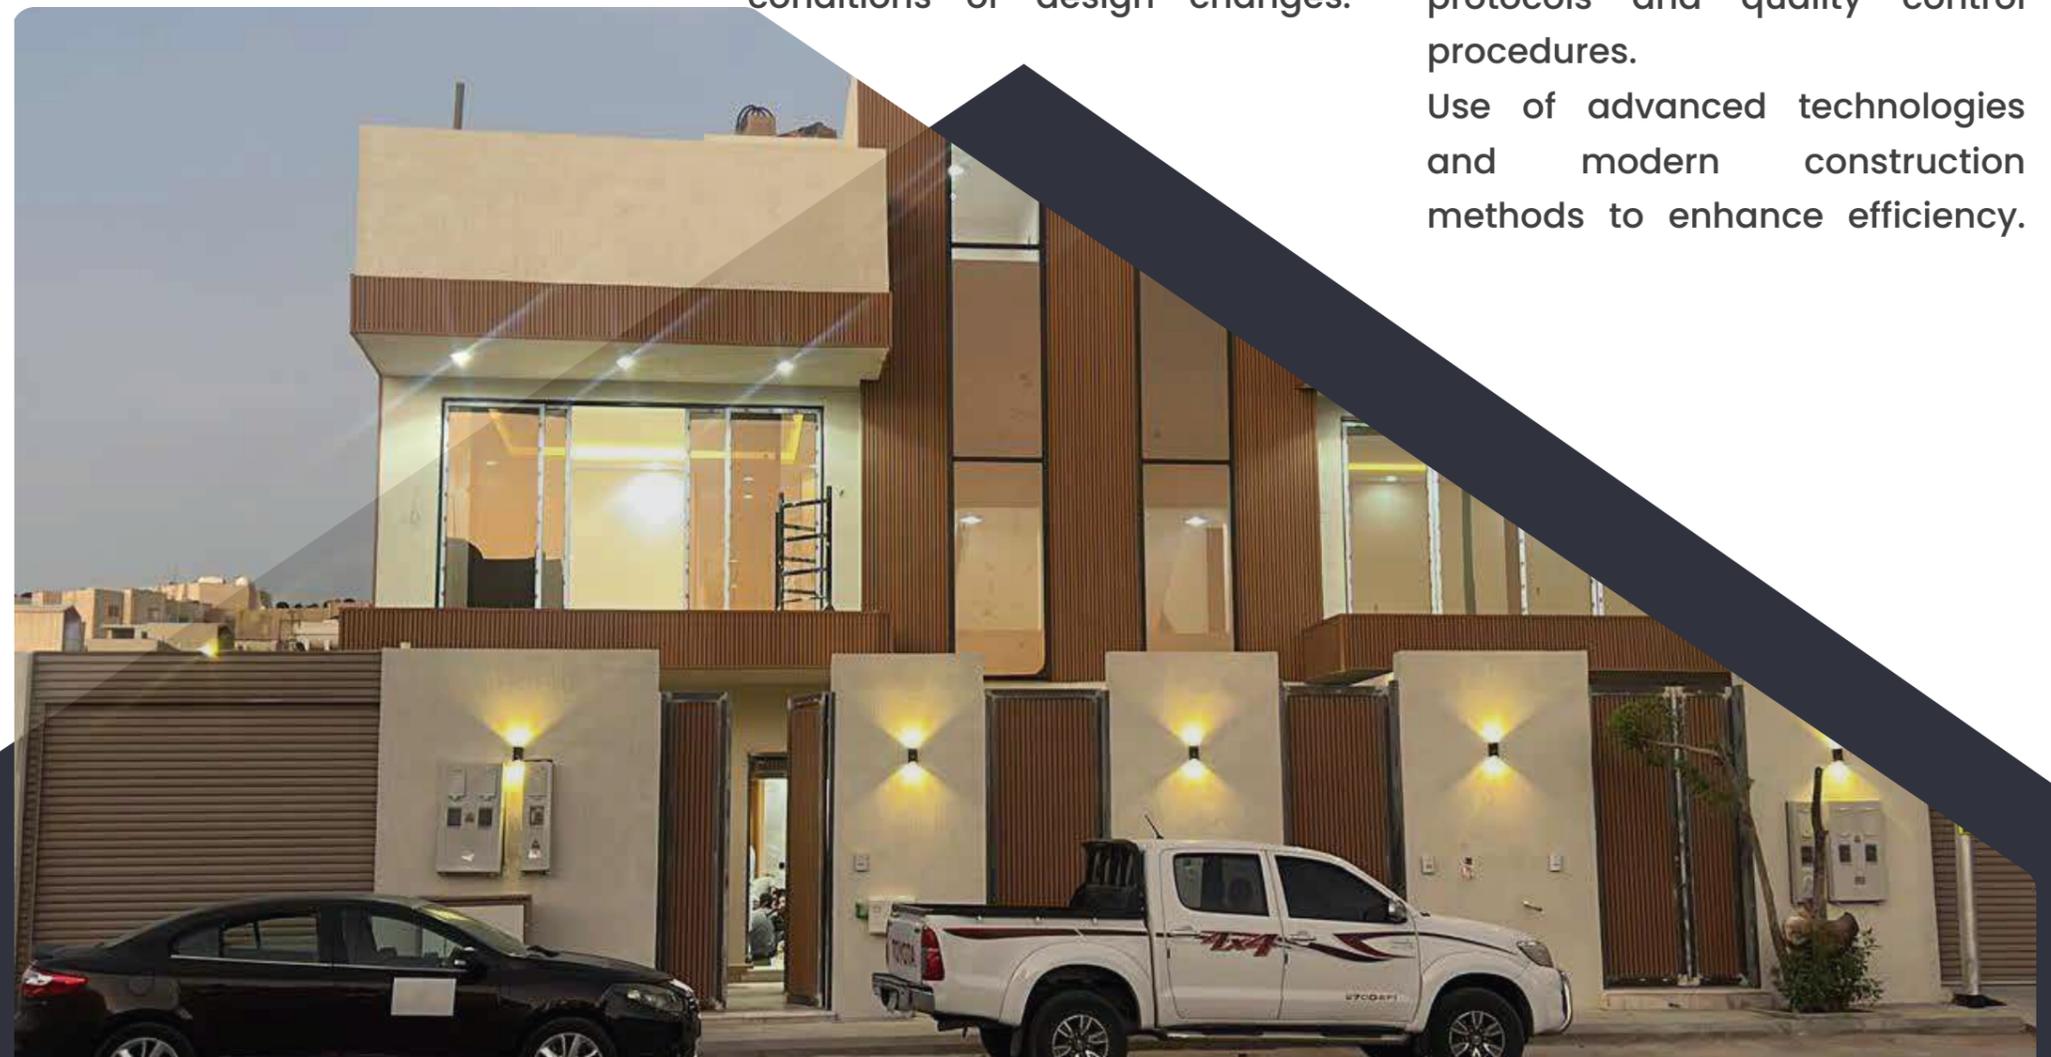

Ariacapital addresses these challenges through a structured and professional approach:

Detailed planning and scheduling to optimize workflow and resource allocation.

Integration of skilled teams across Civil, HVAC, and MEP disciplines for seamless execution.

Strict adherence to safety protocols and quality control procedures.

Use of advanced technologies and modern construction methods to enhance efficiency.

# MEP WORK

RIYADH SCHOOLS  
AL MALQA 2025

## Supply, Installation, and Commissioning of VRF/VRV Air Conditioning System

Installation of advanced VRF/VRV outdoor units (Hitachi brand) on the rooftop to ensure high efficiency and energy-saving cooling solutions.

Execution of refrigerant piping, insulation, and electrical cabling with proper support systems for long-term durability.

Fabrication and installation of cable trays, GI supports, and junction boxes for a neat and organized electrical setup.

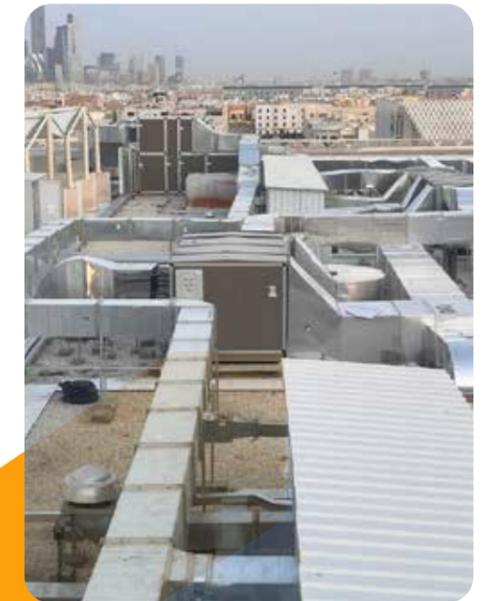

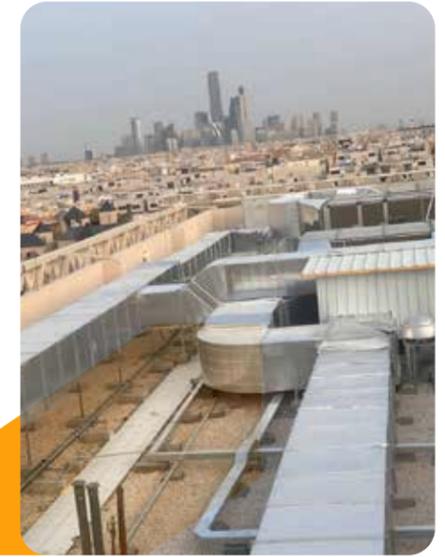

Testing and commissioning the system to ensure and reliable

Delivered a state-of-the-art centralized air conditioning solution suitable for large-scale commercial facilities. Successfully managed complex rooftop installation in a high-rise environment.

Ensured optimal performance with professional pipe routing, insulation, and system balancing.

Provided a solution that ensures energy efficiency, durability, and low maintenance

# MEP WORK

Alraya Supermarkets  
Jeddah **2025**

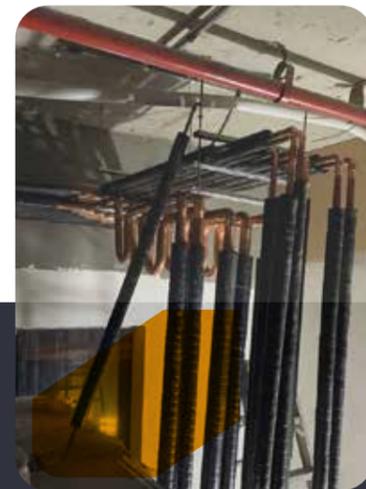

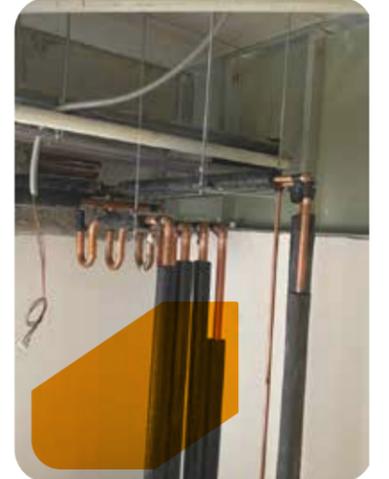

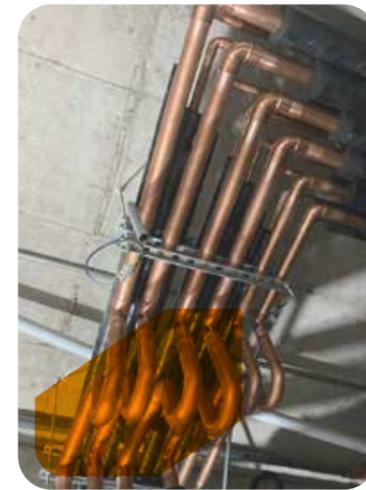

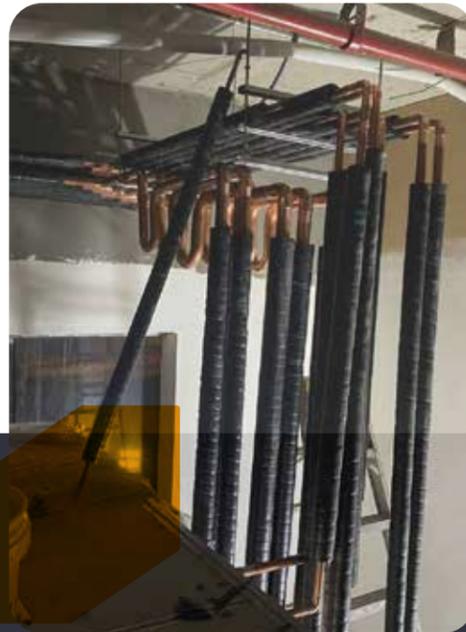

## Supply, Installation, and Commissioning of VRF/VRV Air Conditioning System

Aria Capital Contracting Company executed the complete copper piping network for a large-scale HVAC installation at Alraya supermarket Jeddah. The work involved fabricating, brazing, and insulating copper pipelines that formed the backbone of the cooling system for a commercial building.

### Outcome:

Delivered a highly reliable cooling distribution system. Achieved optimum energy efficiency by minimizing heat loss.

Client appreciated the neat workmanship and professional finishing of the exposed piping works.

# MEP WORK

Almarai KSA **2025**

## HVAC Copper Piping Works for Almarai Company

Aria Capital Contracting Company was entrusted with the execution of specialized HVAC copper piping works as part of the MEP installation for Almarai's facility.

The project demanded precision, hygiene compliance, and high quality standards, given the critical nature of operations in the food processing and storage sector.

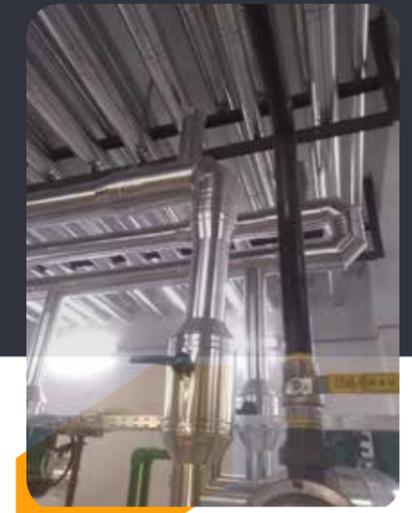

### Challenges & Solutions:

#### Hygiene Requirements:

As the client operates in food production, all works were executed under strict cleanliness and safety guidelines.

#### Complex Pipe Routing:

Neat alignment and precise bends were used to manage space constraints while maintaining accessibility for maintenance.

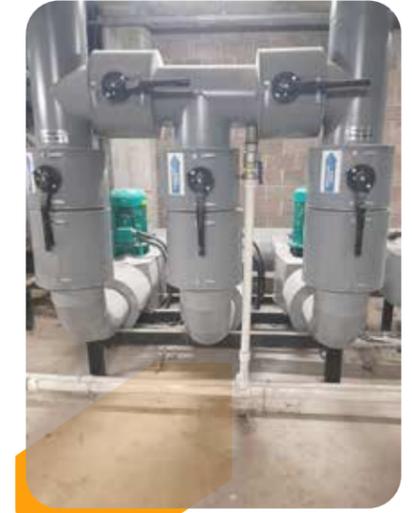

### Scope of Work:

Fabrication and installation of copper refrigerant piping for VRF/VRV systems.

Brazing of all copper joints with leak-proof assurance.

Insulation works with high-density material to prevent condensation and energy loss.

Structured routing of multiple pipe runs in limited ceiling and shaft spaces.

# MEP WORK

Jawazat KSA **2025**

## HVAC Ductwork Installation

Ariacapital Contracting Company, the project likely involved the installation of an HVAC system, for a Jawazat building as seen in the images. This include the design, installation, and maintenance of the ductwork, along with other HVAC components like air conditioning units. This project likely involve ensuring efficient airflow and climate control within the building.

## Rooftop Units Installation – Institutional Facility

Scope of Work:

Complete mechanical works including installation of package units, ducting, and insulation.

Details:

Supply and installation of rooftop package units with duct distribution. Aluminum cladding for UV protection and extended duct life.

Vibration isolators and weatherproofing applied.

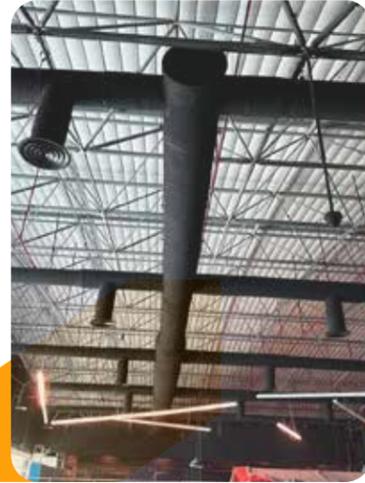

Outcome:

Improved system performance, longer duct lifespan, and client satisfaction.

# MEP WORK

RIYADH GALLERY  
Riyadh 2025

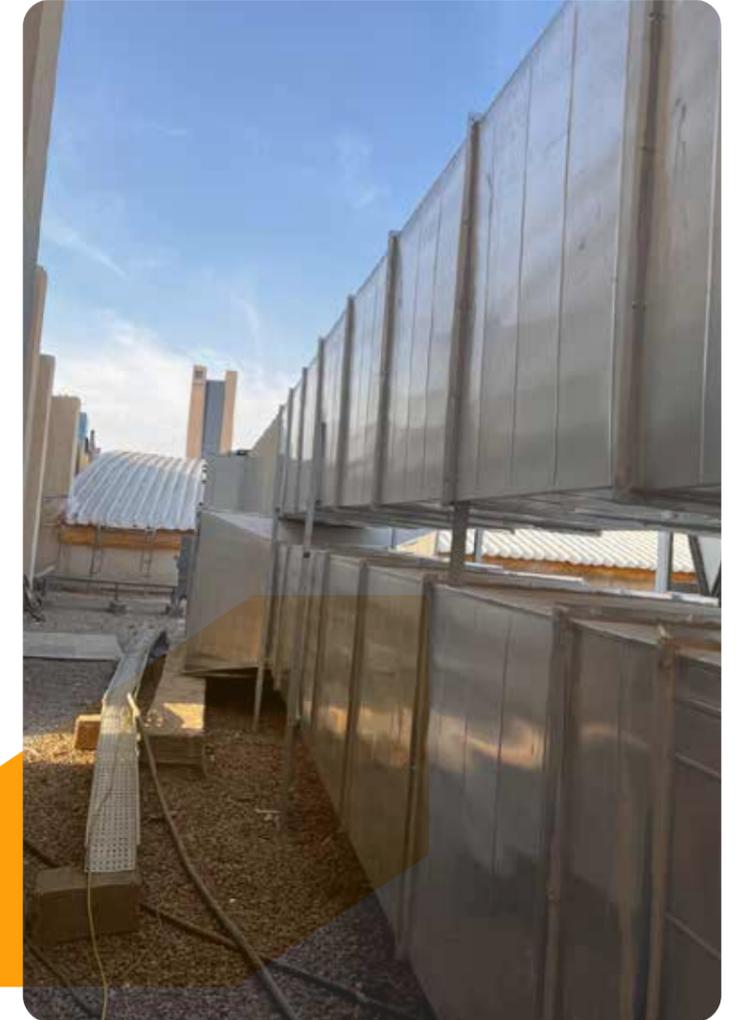

## Special Features:

Combination of aesthetic black ducts with functional supply outlets.

Integration with fire-fighting piping and electrical works

## Indoor HVAC Installation & Air Distribution

projects involved the installation of both fabric-insulated duct systems and exposed painted ducts that not only ensured efficient air distribution but also blended seamlessly with modern architectural designs. Round ducts with multiple supply diffusers were installed with precision, supported by durable suspension systems, and integrated with fire-fighting and electrical services

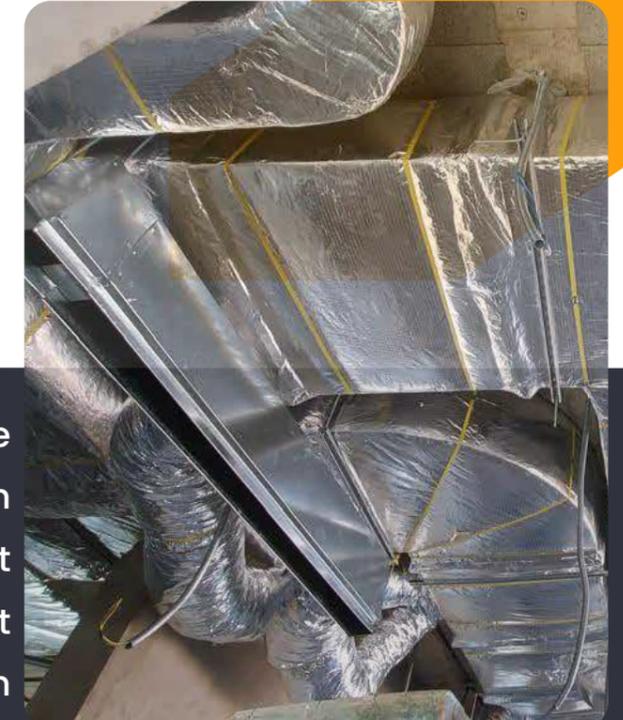

# MEP WORK

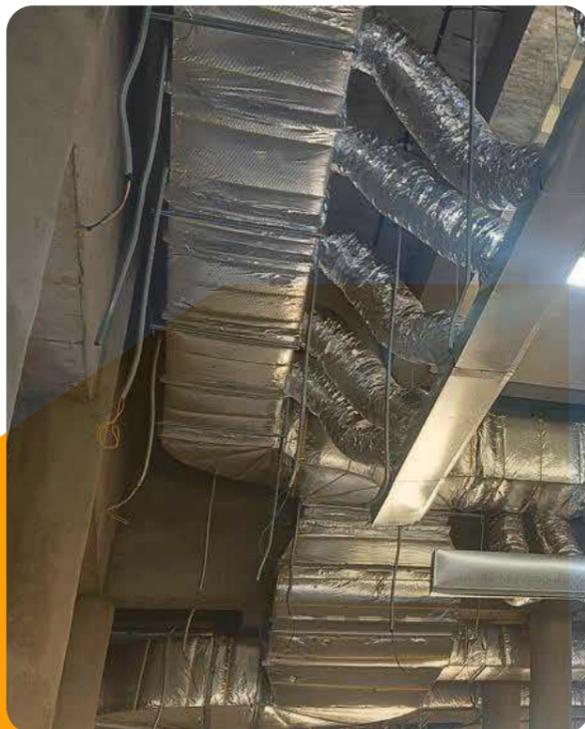

## QASAR ALTABRAK HVAC Works 2025

Our Company was entrusted with the complete HVAC ducting and insulation works for the prestigious Qasar Tabrak project.

The scope of work included the fabrication and installation of galvanized iron ducts with thermal insulation wrapped in aluminum foil to ensure high energy efficiency .

Flexible insulated ducts were carefully integrated with the main ducting system to provide efficient air distribution across different areas of the facility. The installation was carried out with strict adherence to safety standards, using robust suspension and support systems to accommodate the building's architectural design. HVAC system that not only meets the functional requirements of the client but also complements the architectural vision of Qasar Tabrak.

# MEP WORK

Alraya Supermarkets  
Jeddah 2025

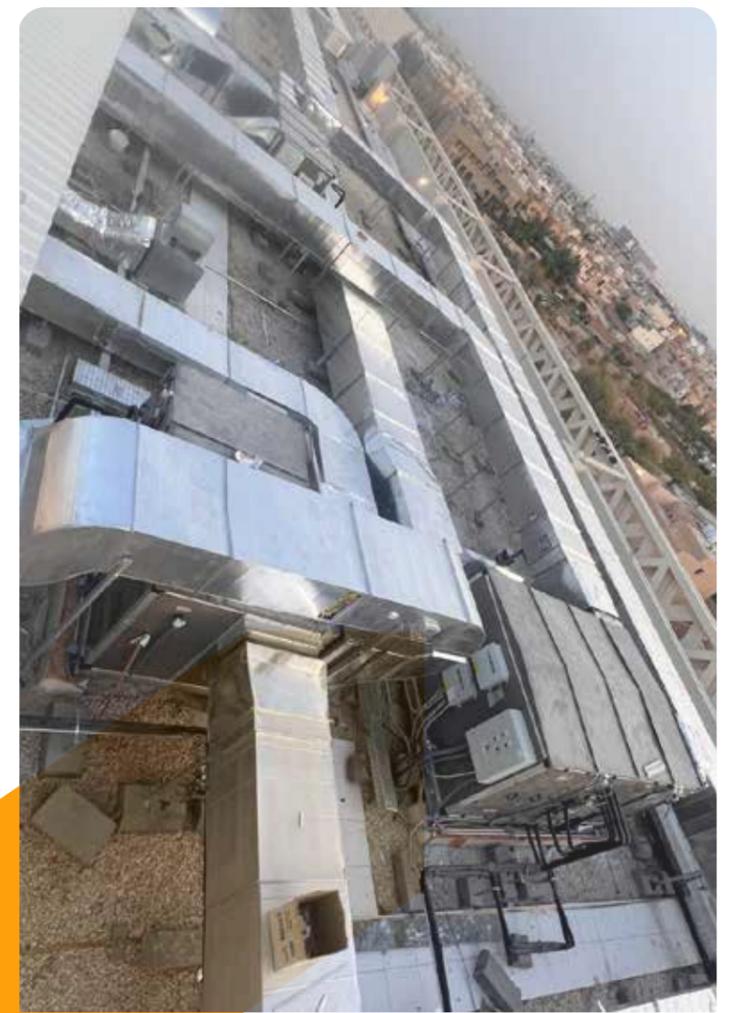

## HVAC Works, KSA

The scope of work included the fabrication and installation of galvanized iron ducts with high-quality thermal insulation and aluminum cladding to ensure system efficiency and durability under extreme weather conditions. Rooftop Air Handling Units .

were integrated with an extensive duct distribution network designed to deliver balanced air circulation across the facility.

Special care was taken to ensure weatherproofing, energy efficiency, and vibration isolation, guaranteeing both reliability and longevity of the system.

## Thamer International Schools

Our company had the privilege to execute the construction works for Thamer International Schools, a landmark educational institution designed to provide world-class facilities that support modern learning environments.

The scope of work covered structural construction, concrete works, block works, steel reinforcement, and finishing preparations. The project demanded a high level of precision and quality to meet international standards for safety and sustainability.

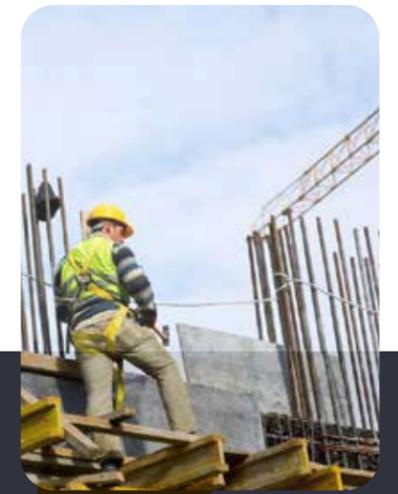

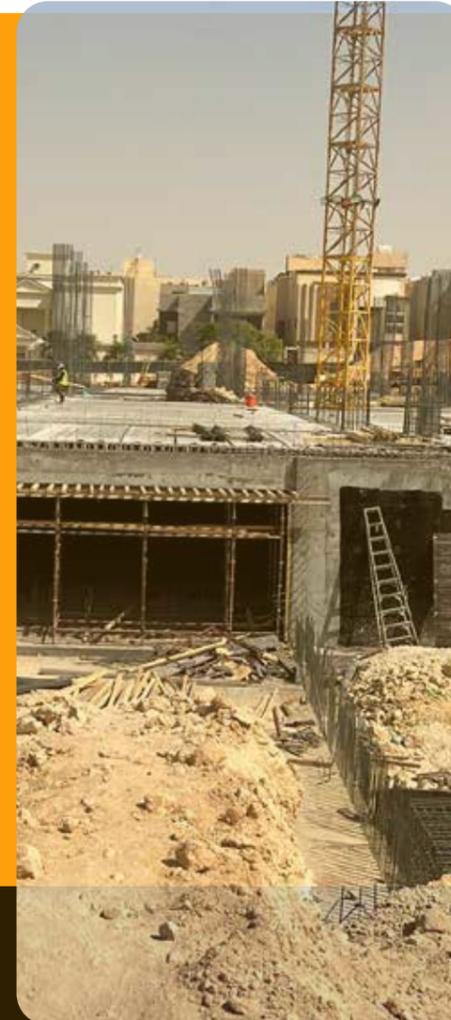

During the construction phase, our team utilized advanced engineering techniques including slab reinforcement, void-forming systems for lightweight structures, and high-quality block-work for durable building envelopes. Strict safety protocols and quality control measures were applied throughout the project to ensure both worker safety and the structural integrity of the buildings.

## Misk Schools

Key construction methodologies included the installation of reinforced slabs, advanced formwork systems, and sustainable building techniques, ensuring durability, safety, and energy efficiency. The project was completed under strict quality assurance and safety protocols, reflecting our company's dedication to excellence in every stage of development.

The completion of Misk School stands as a testament to our capability in delivering large-scale educational facilities that meet international standards, supporting the Kingdom's vision of building innovative and future-ready institutions.

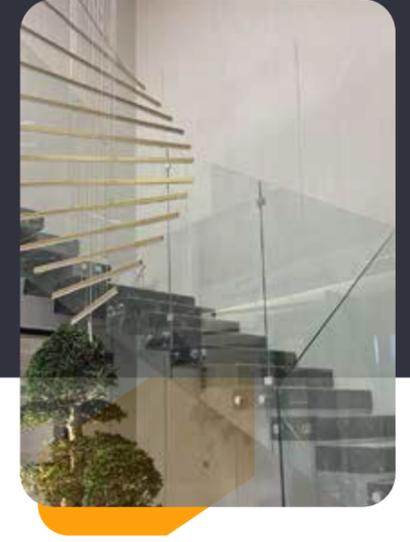

## Modern Residential Villa Project

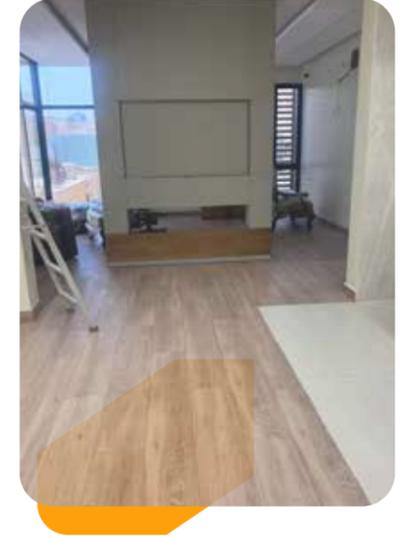

Our company successfully delivered a series of modern luxury villas, designed and executed with a focus on elegance, functionality, and high-quality finishes. Each villa combines contemporary architectural design with practical living spaces, offering residents both comfort and sophistication.

The project included full structural works, exterior cladding, steel reinforcement, blockwork, plastering, tiling, electrical and mechanical installations, and final finishing works. The facades were carefully crafted with a combination of modern geometric forms, aluminum features, and high-performance materials, giving the villas a distinctive, upscale appearance.

The villas showcase premium interiors, including marble staircases with glass balustrades, modern wood paneling with integrated lighting, decorative wall finishes, and high-quality flooring. The layout was designed to optimize natural light and enhance the overall sense of space, ensuring both beauty and functionality.

## Modern Residential Villa Project

This project demonstrates our capability to deliver turnkey residential solutions, from structural construction to fine interior detailing. With a commitment to precision, creativity, and quality, we transformed these villas into luxury homes that reflect modern living standards while maintaining durability and long-term value.

The villas premium interiors, including marble staircases with glass balustrades, modern wood paneling with integrated lighting, decorative wall finishes, and high-quality flooring. The layout was designed to optimize natural light and enhance the overall sense of space.

## Modern Residential Villa Project

This villa project represents a blend of modern design, functionality, and luxury living. The exterior facade is characterized by clean lines, contemporary finishes, and the creative use of natural tones combined with wood-textured elements, giving the residence a stylish and welcoming appearance. The large glass windows not only enhance the beauty of the structure but also ensure abundant natural light inside the home.

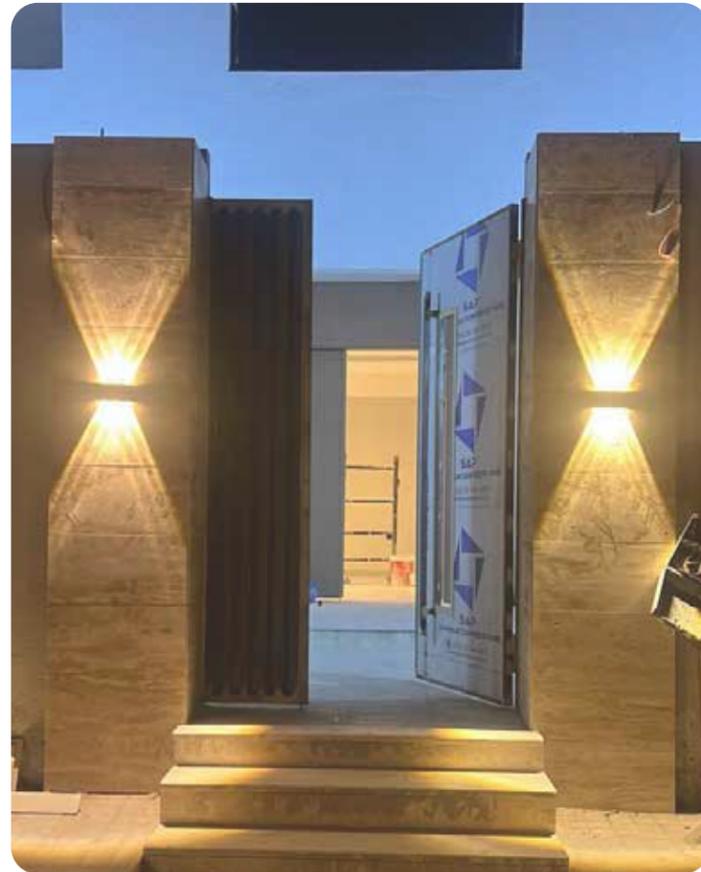

The interiors are enhanced with advanced lighting solutions, including recessed ceiling spotlights and concealed ambient lighting, which create a bright and comfortable living atmosphere.

From the structural detailing to the modern finishes, this villa reflects high standards of design and execution, delivering a residence that combines comfort, elegance, and practicality for contemporary living.

## Elegant Residential Villa Project

This villa traditional and modern architectural elements, offering both comfort and sophistication. The exterior is designed with a classic touch, highlighted by warm earthtone finishes, decorative lighting, and an elegant main entrance gate that creates a welcoming impression. Subtle landscaping and exterior lighting enhance the villa's beauty, especially during the evening.

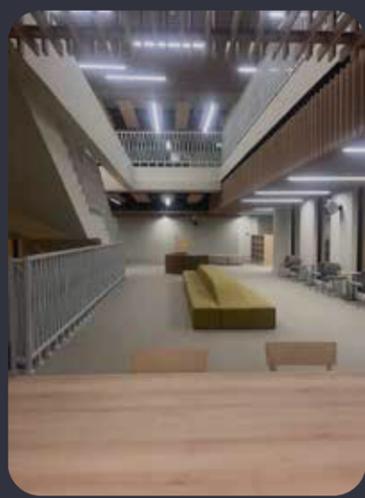

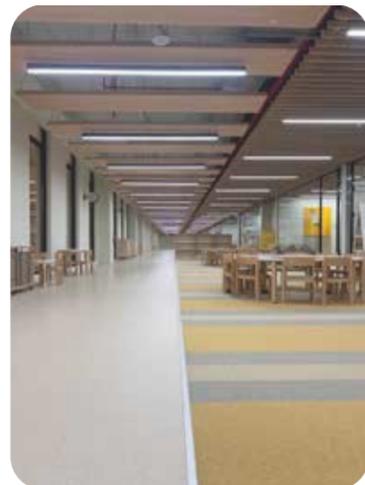

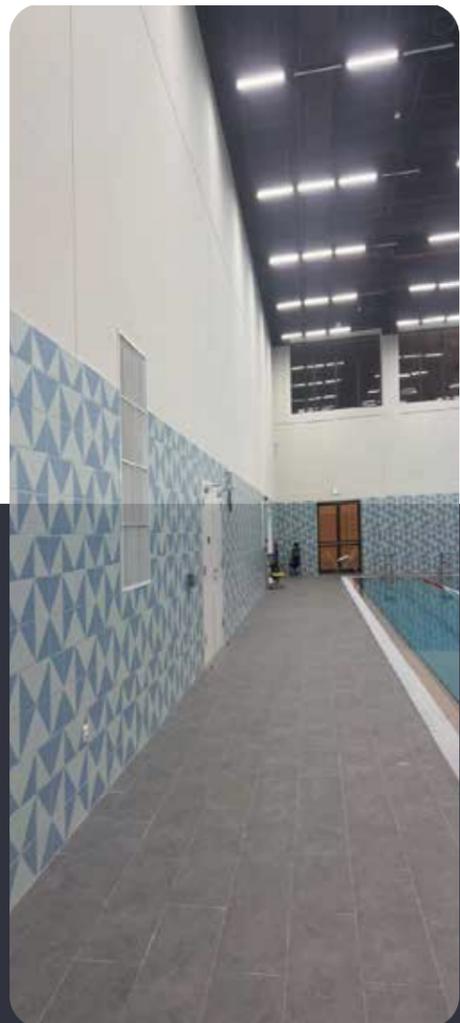

Inside, the villa features modern interior finishes with clean white walls, recessed ceiling lighting, and spacious layouts designed for family living. The staircase with sleek black railings complements the neutral tones of the flooring, adding a touch of modern minimalism while ensuring safety and durability. Energy efficient lighting and proper ventilation were carefully integrated to provide a bright, airy, and sustainable living environment.

## RIYADH SCHOOLS AL MALQA CAMPUS

Our company successfully delivered the Riyadh Schools Al Malqa Campus, a modern educational facility designed to provide students with a state-of-the-art learning environment. The project reflects a balance of functionality, innovation, and aesthetics, ensuring an inspiring atmosphere for both students and staff.

The interior spaces feature custom-designed classrooms, multipurpose learning areas, study zones, and collaborative spaces, all fitted with

advanced finishes and furniture tailored to modern education standards. The use of warm tones, patterned flooring, and acoustic wooden ceiling panels enhances both comfort and aesthetics, while ensuring noise control for an

ideal learning environment. The project also incorporates high-quality lighting systems, sustainable materials, and safety features, such as sprinklers and emergency exits, meeting international standards for school construction

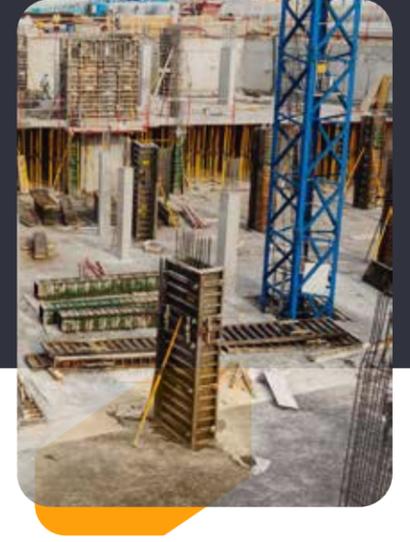

## Modern Residential Tower Project

Our company successfully delivered a series of modern luxury villas, designed and executed with a focus on elegance, functionality, and high-quality finishes. Each villa combines contemporary architectural design with practical living spaces, offering residents both comfort and sophistication.

The project included full structural works, exterior cladding, steel reinforcement, blockwork, plastering, tiling, electrical and mechanical installations, and final finishing works. The facades were carefully crafted with a combination of modern geometric forms, aluminum features, and high-performance materials, giving the villas a distinctive, upscale appearance.

The villas showcase premium interiors, including marble staircases with glass balustrades, modern wood paneling with integrated lighting, decorative wall finishes, and high-quality flooring. The layout was designed to optimize natural light and enhance the overall sense of space, ensuring both beauty and functionality.

عزيزي العميل،،،

تماشيا مع الأنظمة الموجهة لجميع البنوك المحلية المتعلقة بجميع عمليات التحويل المصرفية، فإننا نود إبلاغكم بأنه اعتبارا من تاريخ 01-9-2009 الموافق 11/9/1430 هـ، سوف يقوم BSF باعتماد رقم الأبيان لجميع عمليات التحويل المصرفية داخليا (نظام سريع).

علما عزيزي العميل بأنه يتطلب استخدام رقم آبيان لإتمام العمليات التالية:

- عمليات التحويل الواردة من الشركات والجهات الحكومية ( مثل الراتب ) وتحويلات الأفراد.
- عمليات التحويل المرسله من حسابكم إلى بنوك محلية.

فيما يخص عمليات التحويل الداخلية في BSF فإن ذلك لا يتطلب الحصول على رقم آبيان لتنفيذ عملية التحويل.

بالإضافة إلى ذلك، فإننا قمنا بتحويل جميع أرقام حسابات المستفيدين المعرفين مسبقا لديكم لرقم الحساب الجديد آبيان وذلك تسهيلا لإتمام عمليات التحويل المصرفية الخاصة بكم.

وفي حالة وجود أي استفسار يتعلق بالحصول على رقم آبيان الخاص بكم الرجاء:

- الدخول على فرنسي بلس (<https://securebanking.bsfonline.sa>)
- الاتصال على الهاتف المجاني (8001242121)
- زيارة موقع البنك (<https://bsf.sa>)
- زيارة أقرب فرع
