WELCOME TO ARIYA CAPITAL CONTRACTING CO.

AriaCapital Contracting Company has successfully expanded its expertise into landscape development, delivering projects that combine functionality, aesthetics, and sustainability

Our landscaping works are designed to enhance the visual appeal of residential, commercial, and institutional spaces while ensuring long-term durability and efficient use of natural resources.

Our scope of work includes the design and execution of soft landscaping such as lawns, trees, shrubs, and decorative planting, as well as hard landscaping elements like interlock paving, pathways, outdoor seating, pergolas, and water features. We also integrate modern irrigation systems to support healthy plant growth and reduce water consumption.

About Company

A trusted name in the construction industry, delivering innovative, sustainable, and high-quality solutions across a wide range of projects

Since our establishment, we have built a reputation for excellence by combining technical expertise, strong project management, and a commitment to client satisfaction. We specialize in residential, commercial, and industrial construction, and specialized landscape projects offering turnkey services from planning and design execution and handover. Our team of experienced engineers, architects, and skilled professionals works hand in hand to ensure that every project is completed on time, within budget, and to the highest standards of safety and quality.

Our Vision

Our vision is to be recognized as a leading construction and landscaping company in the Kingdom of Saudi Arabia, delivering projects that inspire trust, enhance communities, and set new benchmarks in quality and sustainability. We strive to create lasting value through innovative solutions, environmentally responsible practices, and a commitment to excellence in every project we undertake.

Our Mission

Our mission is to deliver high-quality construction and landscaping solutions that meet the unique needs of our clients while upholding the highest standards of safety, sustainability, and innovation.

We are committed to transforming ideas into reality by combining skilled expertise, modern technology, and efficient project management. Through dedication and excellence, we aim to contribute to the growth of communities and the development of a better built environment across Saudi Arabia.

Our Services

Soft Landscaping

We create vibrant and sustainable green spaces through professional planting of lawns, trees, shrubs, and ornamental plants. Our designs focus on enhancing natural beauty, ensuring seasonal color, and improving environmental quality, while providing a refreshing outdoor atmosphere.

Hard Landscaping

Our hardscape solutions include interlock paving, pathways, pergolas, outdoor seating, retaining walls, decorative stonework, and water features. Each element is crafted to combine durability with aesthetic appeal, creating functional and inviting outdoor areas.

Irrigation Systems

We design and install modern irrigation systems tailored to each project, ensuring efficient water management and healthy plant growth. Our solutions include drip and sprinkler systems that minimize water waste while keeping landscapes lush and sustainable.

Outdoor Living Spaces

AriaCapital develops customized outdoor spaces such as gardens, courtyards, and relaxation zones that integrate seating areas, shading structures, and lighting. These spaces are designed to provide comfort, usability, and a seamless connection between indoor and outdoor living.

Landscape Maintenance

Beyond construction, we offer maintenance services to preserve the beauty and functionality of landscapes. Our team ensures proper plant care, irrigation monitoring, and seasonal upkeep to keep every outdoor space thriving year-round.

Why Choose Us?

At AriaCapital Contracting Company, we combine creativity, technical expertise, and quality craftsmanship to deliver landscapes that go beyond aesthetics.

-  Creative and customized landscape designs tailored to client needs
-  End-to-end solutions from design to execution and maintenance
-  Expertise in both soft and hard landscaping with modern techniques
-  Sustainable practices with efficient irrigation and water management
-  Proven track record of delivering quality projects on time

What sets us apart is our ability to design and execute projects that balance natural beauty with functionality, ensuring every outdoor space serves a purpose while adding value to the property. Our team is equipped with the latest techniques and modern equipment, enabling us to provide reliable solutions tailored to client needs—whether

it's residential, commercial, or institutional landscaping. From soft and hard landscaping to irrigation and long-term maintenance, we offer end-to-end services under one roof. With a strong track record of successful projects, a commitment to sustainability, and an unwavering focus on customer satisfaction, AriaCapital stands as a trusted partner for transforming outdoor spaces into welcoming, sustainable, and enduring environments. Our approach to landscaping is client-focused, ensuring that every project reflects the unique vision and requirements of our customers. We carefully study the site, climate conditions, and architectural style before proposing tailored solutions that seamlessly blend with the surroundings. By prioritizing sustainability and long-term performance, we create outdoor environments that are not only visually impressive but also cost-effective to maintain.

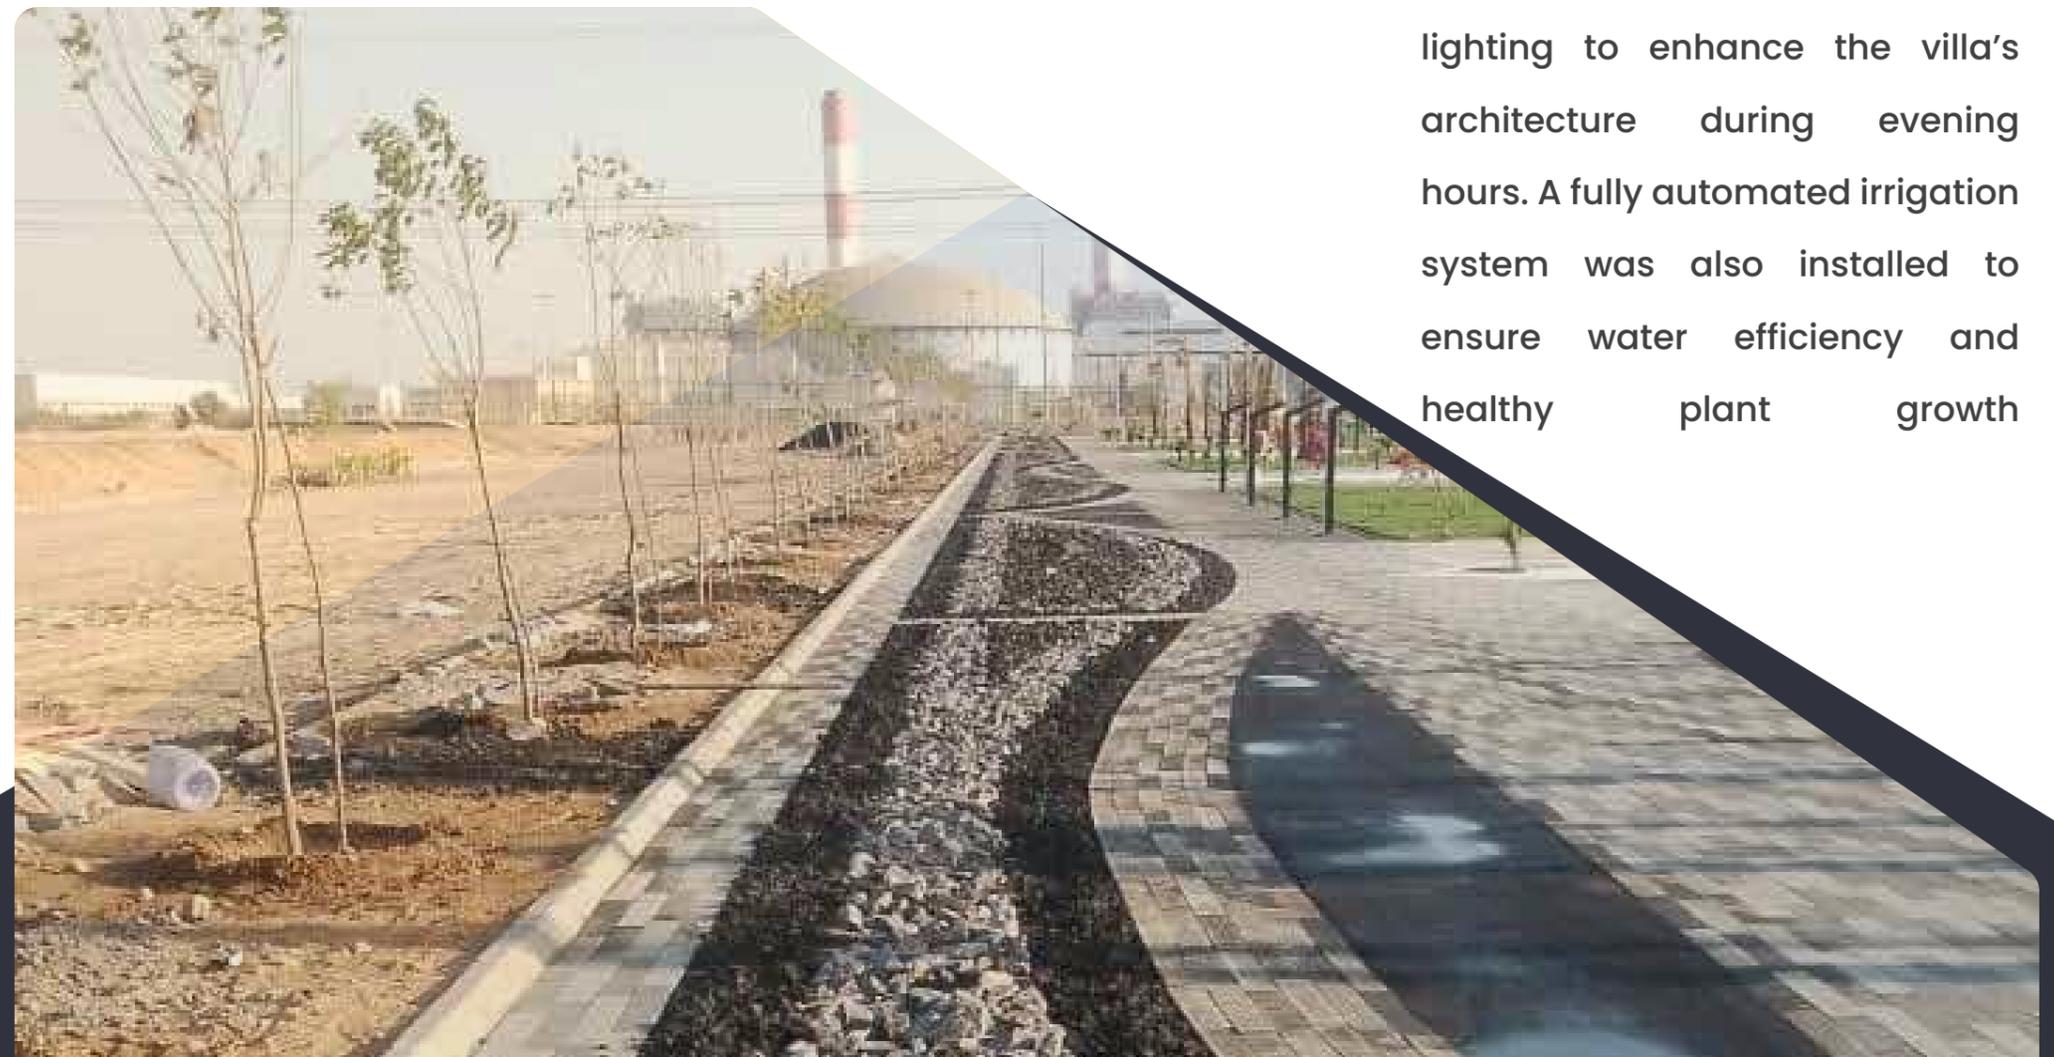

Case Study

We create sustainable and elegant landscapes that blend natural beauty with functional outdoor living.

01 Project Overview

AriaCapital Contracting Company was entrusted with the complete landscape development of a private residential villa in Riyadh. The client's vision was to create a modern outdoor environment that balanced natural greenery with functional living spaces for family gatherings and leisure.

02 Challenge

The main challenge was the villa's limited outdoor area, which required careful planning to maximize usability without overcrowding the space. Our design team developed a layout that blended open green zones with functional seating areas, creating a balanced and elegant outdoor environment.

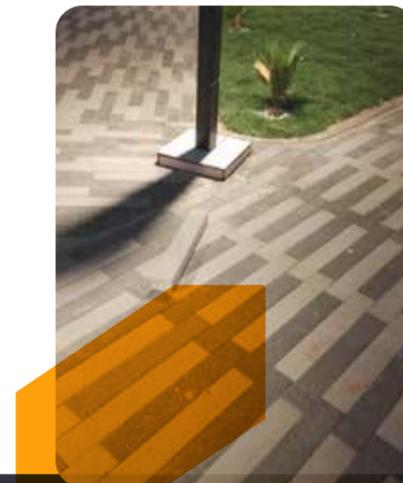

03 Scope of Work

Our team carried out both soft and hard landscaping works. The soft landscape included planting lawns, palm trees, and ornamental shrubs to provide a refreshing green atmosphere. The hardscape consisted of interlock paving for pathways, a shaded pergola for seating, decorative stone features, and accent lighting to enhance the villa's architecture during evening hours. A fully automated irrigation system was also installed to ensure water efficiency and healthy plant growth.

Yanbu Lake Park

AriaCapital Contracting Company was proud to deliver the landscaping works for Yanbu Lake Park, one of the city's most prominent recreational destinations. The project aimed to transform the park into a vibrant and welcoming outdoor space that serves families, visitors, and the wider community.

Our scope included extensive soft landscaping, with the planting of lawns, palm trees, shade trees, and ornamental plants to create a refreshing natural atmosphere around the lake. In addition, we executed hard landscaping works such as pedestrian walkways, interlock paving, seating areas, and shaded resting spots.

Through careful planning and high-quality execution, AriaCapital successfully enhanced the beauty and functionality of Yanbu Lake Park. Today, the park stands as a green landmark that combines leisure, relaxation, and community engagement—reflecting our commitment to creating outdoor spaces that enrich urban life

Misk Schools

AriaCapital Contracting Company was honored to execute the landscaping works for the prestigious Misk School, creating a vibrant and sustainable outdoor environment that complements its world-class educational facilities. Our scope included extensive soft landscaping, featuring lawns, shade trees, and ornamental plants that bring natural beauty and freshness to the campus.

In addition, we delivered hard landscaping elements such as shaded walkways, interlock paving, outdoor seating areas, and gathering spaces designed to encourage interaction and relaxation for students and staff.
